Hot Hand® Hand Protector and Jar Opener

Catalog Number 75359-0000

Place your fingers in one of the pockets and your thumb in the other. The Hot Hand® protects against heat or cold and improves your grip on any item, even those made slippery by frost or water. The multiple studs on the gripping surface help to hold smooth glass, metal or plastic items. For unscrewing tight caps on jars or bottles, the studded surface provides more friction and improves your grip. Hang the Hot Hand® on a hook where it will be readily available when needed.
