Taking care of the little things. Helping to maintain an independent lifestyle...

Tenura is more than a range of non-slip products. It can be built into a lifestyle system that can be used to maintain independent living for people with reduced hand grip/strength or mobility limitations.

Tenura offers a range of extremely effective anti-slip products that provide a non-slip grip on dry, smooth and slippery surfaces including tables, worktops, trays, handles and smooth floor surfaces. Our specially designed materials, mats and grip products prevent movement and provide enhanced grip and leverage on handles and lids.

Unlike other non-slip and grip products on the market, Tenura is made entirely from silicone rubber, a material that is non-toxic and chemically inert. Tenura is safe up to 470° F (250° C). It does not contain phthalate plasticizers, which are key ingredients of other products with similar non-slip properties.

Tenura can be used as a solution in the home to maintain independent living and can also be used in clinical, institutional and long term care environments. It can also be used in vehicles, mobile homes and boats.
Non-Slip Coasters and Mats

Tenura offers a range of anti-slip mats from small coaster styles up to large table and work surface mats. They provide a firm, secure grip and hold on objects such as plates, cups, cutlery, bowls, cutting boards, etc. and can be used on any smooth surface such as tables, trays and counter tops.

Tenura coasters and mats can also be used to provide a firm grip and hold on objects such as mobile phones, computers, tools and games - particularly in vehicles and surroundings subject to motion and/or tipping.

They come in a variety of circular and rectangular shapes, and are available in three colors. Tenura coasters and mats are long lasting, and dishwasher and autoclave safe.

Applications

Uses for Tenura coasters and mats include:

• Holding plates, bowls, cups and utensils securely in place on tables, counters and trays
• Holding cutting boards and kitchen appliances in place
• Holding objects on non-horizontal surfaces and/or surfaces subject to motion or tipping securely in place

Jar and Bottle Openers

Tenura jar and bottle openers are designed to fit a variety of sizes and shapes. They provide an enveloping area of traction and a firm grip to turn even the most stubborn screw-on caps and lids.

The domed outside of the device provides a flexible, soft handle that is ridged to provide leverage when gripped with the fingers and thumb and/or in the palm of the hand. Tenura jar and bottle openers are extremely helpful to people with arthritis or limited hand strength, and can be operated with one hand with the use of a Tenura mat on the base of the jar or bottle. Tenura jar and bottle openers are long lasting, and dishwasher and autoclave safe.

Applications

Uses for Tenura jar and bottle openers include:

• **Opening bottles, jars and pill containers of all shapes and sizes**
• **Gripping and providing leverage on handles and doorknobs**
• **Assisting people with arthritis or any condition that weakens hand grip**

Safety Grip Floor Mats

Tenura’s anti-slip floor mats help prevent accidents while sitting down and standing up by providing a firm grip area on smooth and slippery floor surfaces.

Falls are a common occurrence for older adults, people with disabilities and those with limited mobility, and can often lead to serious injury.

Tenura floor mats reduce the risk of slipping and falling on smooth or slippery floors. They are particularly useful to people who find it difficult to maneuver between sitting and standing, from bed to chair or when stepping on or off stairs. Tenura floor mats are long lasting and fully washable.

Applications

Uses for Tenura floor mats include:

• **Stabilizing the feet while:**
  - Standing and sitting
  - Transferring to or from a wheelchair
  - Getting in or out of bed

• **Holding rugs in place on smooth or slippery floors**

Non-Slip Material Rolls and Strips

Tenura non-slip material rolls offer a DIY (Do It Yourself) alternative to the manufactured range and provide customized solutions to anti-slip issues. The material is a very flexible and malleable sheet that can be cut to size and shape, for any dry non-slip application.

Tenura strips can be wrapped around objects and utensils to improve grip weakened by arthritis and other conditions. The rolls can be cut to size and used flat on a tray as a liner or on the floor as a non-slip floor mat.

Because it is thin and flexible it can also be successfully used as an unobtrusive drawer or shelf liner. Tenura is long lasting, and dishwasher and autoclave safe.

Applications

Uses for Tenura rolls and strips include:
- Providing a firm grip and hold on cups, plates, utensils, handles, knobs, etc.
- Lining shelves, trays and drawers
- Making fun shaped DIY non-slip mats

Non-Slip Fabric Netting Rolls

In addition to the smooth rolls, the Tenura range offers non-slip cushion netting. This material has a soft, spongy texture and is suitable for circumstances where cushioning is also needed.

Non-slip cushioned, fabric netting is ideal for applications where extra cushioning or a softer feel is desired. Tenura fabric netting can be cut to size and shape for customized solutions to overcome a multitude of slip issues and is fully washable.

Applications

Uses for Tenura fabric netting include:

- Lining shelves and drawers in mobile homes and boats to hold objects in place
- Lining flat surfaces when movement or tilting is likely (i.e.; cars, vans, boats)
- Placing under rugs and mats on smooth or slippery surfaces

Anti-Slip and Grip for Independent Living
Tenura Extreme

This special non-slip material is designed for more extreme circumstances and more demanding slip issues. Tenura Extreme, a translucent material, is sticky to the touch and grips objects immediately on contact providing a very firm hold.

Particularly useful in circumstances where there may be movement or jolting and where more extreme tipping may occur, this material is unobtrusive and can be used on smooth surfaces to keep loose objects firmly in place. Typical uses may include lining walker trays and holding objects firmly in place in vehicles, mobile homes and boats. Tenura Extreme has incredible levels of hold and is tacky to the touch. It is dishwasher and autoclave safe, and can easily be regenerated to its original condition if affected by dust.

Applications

Uses for Tenura Extreme include:

- Lining trays
- Holding objects firmly in place where movement, jolting and/or tipping is likely such as in vehicles, mobile homes and boats

Tenura for Wet Areas

Available on a roll as strips or circles in a clear or white self adhesive material, Tenura for Wet Areas provides a non-slip grip, particularly in bathrooms and changing rooms where floors and surfaces tend to be wet and slippery.

Tenura for Wet Areas is easy to apply and provides a long lasting and unobtrusive anti-slip solution in the home, as well as in clinical, institutional and long term care environments.

Applications

Uses for Tenura for Wet Areas include:

• Reducing the risk of slipping and falling on wet floors in the bathroom and in changing rooms

- Provides firm grip and hold
- Non-toxic oil-lubricant; latex free
- Adhesive free
- Clinical and domestic uses
Packaging

All Tenura products are presented for sale in attractive and protective packaging that will keep the product clean and dust free. All packaging, except POS boxes, has hang holes so it can be displayed on slat wall.

For further information about Tenura please contact us at 800-443-4926 or e-mail custservice@maddak.com.

Care Information

All Tenura products are fully washable and may be cleaned with warm, soapy water. Tenura products (except for Tenura for wet areas) should not be used when wet and will not provide grip until dry. It is preferable to air dry the material to avoid leaving lint and dust on it from cloths.

Tenura is tough, flexible and durable and will last for many years. It will retain its anti-slip properties throughout its life span, provided it is cleaned periodically.
Tenura is a range of anti-slip and grip products for the home and for clinical uses. For more information visit www.tenura.us or call us at 800-443-4926.

Tenura is non-toxic and chemically inert. It does not contain phthalate plasticisers. Tenura is safe up to 470° F (250° C).

Tenura is a branded division of Heskins Limited, UK

Maddak Inc. is the exclusive U.S. distributor of the Tenura product line.
